### Instructions For This Packet

Page 19: Remind the student:

- This is a diagnostic, not a real test.
- Assure them its perfectly ok if they don't know how to do certain problem.
- Ask them to skip whatever they don't know.

Watch the student for cues when they are starting to struggle so you can reach out to him/her at that point. This helps in student not getting frustrated.

Watch if student is doing the problems confidently (i.e. knows the stuff). You can ask him/her to skip after first few problems and move on to the next diagnostics.

Page 20: Watch if student is able to do carry for both unit and tens place (example:  $234 + 466$ ) and is able to do them confidently. You can ask him/her to skip after first few problems and move on to the next diagnostics.
